Media Safe Workshops have assisted us here at Southwood in accomplishing our youth ministry's goal of equipping preparing challenging, and encouraging students to live out their faith in Jesus Christ. The balanced approach that Ryan Richardson presented to our parents and youth in regards to media awareness and management has helped to foster thoughtful discussion as well as wise decisions in our group.

I personally recommend checking these workshops out and using them to help your friends, family, and coworkers understand the need for media awareness as well as the many methods for making wise choices to keep your family "Media Safe."
